Outdoor Audio Systems

THE SOUND VISION at *fleurdetroit* 1507 Old s. Telegraph, Bloomfield Hills, MI 48302

Landscape Outdoor Audio System

Our smallest landscape system is our budget friendly option that gives you the best sound for your money. It gives small areas and patios a beautiful tranquil space that you and your friends will enjoy; while creating an audio performance that could never be achieved with traditional outdoor speakers. The speakers come in a variety of colors including an option for actual copper meant to shine for years or patina like your gutters.

This all-weather system includes 4 satellite speakers, an in-ground subwoofer, and an amplifier that powers the entire system. The concept behind multiple speakers is all about coverage. Creating full range sound at lower volumes is a breeze with this package. This speaker package is covered by a 3 year warranty.

On-Wall

Outdoor Audio System

This pair of speakers is designed to be mounted to your house or pergola and come in either a black finish or a paintable white cabinet. Don't worry about maintenance as there is no need to take these down or cover them in the winter, they are designed to survive our Michigan winters and come with a 5 year warranty. So, enjoy the effortless sound.

Rock Speaker

Outdoor Audio System

These rock speakers have a realistic-looking shape that blends amazingly into the outdoors. No matter how many speakers you use, get a top-quality sound that doesn't take away from an area's natural beauty. It's perfect for easy listening on a weeknight or a party on the weekend. These rock speakers come in both granite and sandstone finishes and they are covered by a Lifetime warranty.
